VIRST PODIUM

Aiming for the Top Spot

**Excellent flight trajectory,
pinpoint long range accuracy**

Perfect round shape

**For low pressure and precise
high pressure markers**

Bright 'WipeBlock' fill

Pro-grade metallic shell

Exceptional breakability

**Best performance in temp.
15°C—30°C**

You are packed and ready to go. Damn, you love these weekends! Yet another city and another trophy waiting to be lifted.

You need a box of paint you can rely on in a top-flight tournament. You buy the Virst Podium — top shelf tournament paint, which breaks when you need it to and provides a steady stream when you have to keep your opponents contained.

VIRST Podium is the paint you can count on, making sure you get that well deserved win.

VIRST

PRIME

An All-time Classic

**Improved flight trajectory,
high accuracy**

Bright, high quality filling

**Suitable for high and low
pressure markers**

Premium single color shell

No oil, easy to wash

**Best performance in temp.
10°C–30°C**

You've played speedball but you also have some history with woodsball paintball. You love the game regardless of the setting. You're a demanding player, but you value both quality and affordability. You need a perfect all-rounder.

A box of paint that adapts to varying circumstances as well as you do, providing top performance amongst inflatable bunkers and pine trees alike.

Unsure on where you are gonna play today? Just make sure you have Virst Prime in your gear bag.

VIRST CAMO

Alpha Bravo Camo

**Improved flight trajectory,
high accuracy**

Bright, premium fill

**Suitable for high and low
pressure markers**

No oil, easy to wash

**Easily trackable,
double color shell**

**Best performance in temp.
5°C—30°C**

You treat your game very seriously, you're a demanding woodsball player. You like to have a good day out with your brothers in arms and maybe have a tendency to wear more camouflage than the average person. What you need is the crucial component of a woodsball player's arsenal - The Virst Camo paint.

It provides you with outstanding repeatability and a highly visible filling, but also offers a heavy duty shell, which does not break in your hopper or on a bunch of leaves. The go-to paint for demanding, tactical players.

ice

Winter Wonderball

Straight flight trajectory

Suitable for high and low pressure markers

Antifreeze fill formula

Bright, highly visible shell

Best performance in temp. -5°C—15°C

It got really cold outside but you're not ready to put your gear bag away. Whether you're trying to squeeze in that one last training session on the speedball field or you are heading out to the woods with a group of dedicated brothers in arms, you need a reliable box of winter paint.

We have come up with a technologically advanced shell design to maintain size repeatability and predictable breakability in very difficult weather conditions. The paint has a tougher shell than most of our other products but stays reliable long after your hands have frozen.
